

Nov. 13, 1949

Dear Howie:

With regard to the Glee Club series with Monsanto, our hands are tied. They have already approached the University authorities and have been turned down. Dear old Harvard won't have anything to do with a commercial radio show. However, one of the deans is plugging for a revisal of this policy so maybe things will clear up in a few months. I'll let you know if anything develops. As for the exchange of sports broadcasts, that will have to wait for our recording equipment, a sore subject at present.

sincerely

WHRB
Harvard Radio Network
